

FlexPAC

Compact, High Performance, Rugged Portable with a 17.3" display and 7 full-length expansion slots. Configurable with the latest Intel® Core™ or AMD processor.

Extremely Versatile

The FlexPAC is one of our most popular computers because of its extreme versatile build. With passive backplane boards configurations to choose from and 7-full length expansion slots available, this computer can be easily customized to fit the needs of your unique application. In addition to this, it supports up to 18 removable SATA HDDs. Simply put, this portable computer is a highly versatile solution.

Ruggedly Built

The FlexPAC is a rugged and transportable platform that is ideal for severe and harsh environments. Its heavy-duty aluminum alloy construction and rubber corners help withstand the challenges you may face on the field. A padded transit case is provided with this unit for easy transportation.
